

Technical Talk on Lighting Techniques and Energy Saving in Retail and Display – accredited by the Royal Institute of Architects, United Kingdom

Details:

Date: 15 May 2008 (Thursday)

Time: 6:00pm – 8:00pm

Venue: HKIA auditorium, 19th Floor, One Hysan Avenue, Causeway Bay, Hong Kong

Programme Highlights

The seminar is organized by a worldwide lighting group, Havells Sylvania, to provide an overview of lighting techniques used in modern retail environment for a better customer experience and for preservation of display in retail setting. Key considerations when designing overall lighting including functions and objectives of lighting for a particular area, specific lighting requirements, guidelines and efficiency in energy saving will be shared. Different lighting effects will be illustrated through demonstrations. The seminar will be conducted in English

Speaker

Dave Warburton is a lighting expert with over ten years experience gained within the architectural lighting sector, predominantly with Concord Lighting of Havells Sylvania company. He has been involved in many major lighting projects including Arup Campus, Jubilee Line Extension London Underground, Forth Bridge Scotland, Dublin Airport and the Paris Metro. On the retail & display front, Havells Sylvania has lit up the Tate Modern, the British Museum & a number of renowned retail operations such as John Lewis, Mark & Spenser, Chanel & Christian Dior. In the last four years, Dave has been working closely with a dedicated in-house design and engineering team focusing on the retail and commercial office sector, developing new, energy efficient innovative lighting solutions based around UK best practice lighting guidelines, LG7. Dave is currently International Marketing Manager with Havells Sylvania and is responsible for devising and providing a series of RIBA accredited continual professional development (CPD) seminars to Architects and Mechanical & Electrical consultants in the UK and overseas markets. Dave holds a Bachelor Degree with Honors in Urban Studies in the Humberside University of the United Kingdom.
