---

**Programme Highlight**

The Hong Kong International Commerce Centre is a 118-story, 490m skyscraper located above Kowloon Station in Hong Kong. The building consists of shopping arcades at lower floors, commercial offices and a 6-star hotel at the upper part of the tower. The design of the building services aim at achieving energy saving and high reliability. It includes over 100 environmental friendly features including new green technology, effective zoned vertical transportation system, reliable power supply, etc. It also obtained the platinum award in HK-BEAM.

The program begins with an overview of the design and development of the project. Afterwards, a guided tour of ICC with a focus on the major plant, building pioneering engineering, environmental and technology features of the building services installation.
