2009 International Lighting Symposium
 Friday, 9 October 2009 09:00 – 17:00 Kowloon Shangri-La Hotel

Objectives:

The symposium provides a platform at which international experts and industry participants can meet with interested parties to discuss key issues and new trends in lighting technology. The event highlights new directions in lighting for commercial and public applications, both locally and globally and seeks to elevate public awareness of the emotional function of lighting.

Who should attend?

Whether you are a supplier, manufacturer, contractor or consultant, working in a utility, engineering company, academic institution or government authority, or you are simply interested in the latest lighting technology, and whether you are from Hong Kong or overseas, you are welcome to attend this symposium.

Speakers

Internationally renowned lighting experts from the United Kingdom, Austria, Australia, Mainland China and Hong Kong will share their knowledge and insights on trends in lighting technology.
