WOMEN IN BUILDING SERVICES ENGINEERING

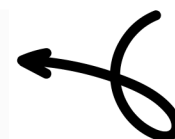

JOINT SOCIETIES WORKSHOP
IN TABLE MANNER

RSVP TODAY

Background

Women In Building Services Engineering Group (WBSE) is established by Building Services Division (BSD) in 2019 to support the Task force on Women in Engineering (TF-WIE) set up by Hong Kong Institution of Engineers (HKIE) in 2017. The objectives of WBSE are to promote membership and provide supports to women engineers through launching different activities/workshops.

To echo the objectives, a table manner workshop is ready for launch with joint support from HKIE-Building Services Division, ASHRAE-HK Chapter and CIBSE-HK Region for members in these three societies.

This relaxing workshop provides a chance for participants to chat with 3 young successful women engineers in the industry, moderated by the Vice President of HKIE, Ir Alice Chow, to discuss perspectives on wide range of topics, i.e. tactics to work with people in different backgrounds, impact of innovation to industry development. Meanwhile, you can also learn from one of the best coach for table manner in town.

Confirmation email will be sent to successful participants and advance payment is required to reserved the seat for the workshop.

Details of payment will be advised in the confirmation email.

E-copy of CPD certificate will be issued for attendees through email after event.

Programme Highlight

The Workshop covers the following sessions:

- Business dining etiquette workshop for professionals
- Sharing session from professional female building services engineers
- Western style dinner
