

JOINT TECHNICAL TALK

INTER-FLOOR WATER SEEPAGE DETECTION TECHNOLOGY AND MEDIATION FOR DISPUTE RESOLUTION

25 JUL 2026 (SAT)

10:00 AM - 12:00 NN

Free of charge

Y301, Lee Shau Kee Building,
The Hong Kong Polytechnic University

CONTENT

Inter-floor water seepage in residential buildings is a common yet challenging issue in Hong Kong. These cases are often technically complex and may lead to disputes between upper and lower residents. With recent advances in non-intrusive detection technologies and the wider adoption of mediation, such cases can now be handled more effectively. In this seminar, we are pleased to invite two experts to share the latest developments in seepage detection and mediation for dispute resolution.

SPEAKERS

Ir Prof. Wallace Wai Lok LAI

Associate Head (Teaching) & Professor,
Department of Land Surveying and Geospatial Science,
The Hong Kong Polytechnic University

Mr. Maverick S.Y. TANG
