## Seminar – How the future in Buildings’ Operation & Maintenance by Artificial Intelligence (AI)

Organized by

Building Services Operation and Maintenance Executives Society (BSOMES)

- This is an Official and Core activity under the CPD Scheme of the Property Management Services Authority –

### Date, Time & Venue

Date : 27 May 2026 (Wednesday)  
Time : 7:00p.m. to 8:30p.m  
Venue : Jockey Club Lecture Theatre (JCLT) 1/F, IVE (Morrison Hill),  
06 Oi Kwan Road, Wan Chai, Hong Kong

### Seminar Highlights

This seminar brings together industry leaders, technologists, facility managers, investors and researchers to decode how artificial intelligence is redefining the entire lifecycle of building operation and maintenance. It moves from reactive repair to predictive intelligence, from isolated systems to autonomous synergy, and from manual management to data-driven decision-making—unlocking efficiency, sustainability, safety and occupant experience for the next generation of smart buildings.

This seminar is your definitive gateway to AI-powered building O&M excellence—turning technology into tangible operational, financial and sustainable competitive advantage

As an invited speaker by BSOMES, Professor Jack Cheng Chin Pang 鄭展鵬博士 would like to share with us in more understanding how the technology development from AI & Sustainability with new application in Buildings’ Operation & Maintenance point of view during the seminar.

### Speaker:

**Professor Jack Cheng Chin Pang 鄭展鵬博士**

PhD in Civil and Environmental Engineering, Standard University

Associate Head and Professor of Dept of Civil and Environmental Engineering of HKUST

Director of BIM Lab,

Director of Center for Digital Twin on the Built Environment

Associate Director of Great Smart Cities Institute

### Language:

Cantonese with English terminology

### Fee

Free of charge including IVE (Morrison Hill) Student
