MULTISTACK, as an international well-known brand in advanced HVAC engineering, continues to drive efficiency and innovation with its high-efficiency VSD screw chillers, custom modular designs, and pioneering oil-free centrifugal chillers—widely adopted across Hong Kong's government facilities, MTR chiller replacements, and data centres.

Highlights of the Technical Tour:

- **Comprehensive Product Portfolio:** Learn about Multistack's chiller products
- **AHRI-Certified Testing Laboratory:** Witness world-class precision testing and performance verification.
- **Danfoss Turbocor Compressor (DTC) Overhaul Workshop:** Explore specialized maintenance, rebuild, and servicing capabilities for oil-free technology.
- **Automated Heat Exchanger Production Line:** See the newly built, automated Plate Heat Exchanger (PHE) line that self-supports key chiller manufacturing and global export.
