Programme Highlight:

M+ is a museum dedicated to collecting, exhibiting, and interpreting visual art, design and architecture, moving image, and Hong Kong visual culture of the twentieth and twenty-first centuries. Located in Hong Kong's West Kowloon Cultural District, M+ is one of the largest museums of modern and contemporary visual culture in the world, with a bold ambition to establish ourselves as one of the world's leading cultural institutions.

There is a district cooling system (DCS) installed and it is one of the most important green facilities within the District. The DCS plant could operate in a more efficient way and get more energy savings compare to the tradition water-cooled chiller systems.
