Women In Building Services Engineering Group (WBSE)

Joint Societies Workshop in

Wine Tasting

Background

Women In Building Services Engineering Group (WBSE) is established by Building Services Division (BSD) in 2019 to support the Task force on Women in Engineering (TF-WIE) set up by Hong Kong Institution of Engineers (HKIE) in 2017. The objective of WBSE is to promote membership and provide supports to women engineers through launching different activities/workshops.

To echo the objective, a wine tasting workshop is ready for launch with joint support from HKIE-Building Services Division, ASHRAE-HK Chapter and CIBSE-HK Region for members in these three societies.

This relaxing workshop provides a chance for participants to chat with 3 successful women engineers in the industry and discuss perspectives on wide range of topics, i.e. tactics to work with people in different backgrounds, impact of innovation to industry development. Meanwhile, you can also taste different wine introduced by tasting tutor.

Confirmation email will be sent to successful participants and advance payment is required to reserved the seat for the workshop. Details of payment will be advised in the confirmation email.

E-copy of CPD certificate will be issued for attendees through email after event.

Programme Highlight

The Workshop cover the following sessions :

- Different types of wine tasting with knowledge introduced by tasting tutor
- Sharing and discussion session among 3 VIP guests and participants
- Western style dinner
- Office Bearers from 3 Societies will join
